

## WHO WE ARE

We provide fully managed services for all aspects of Epic infrastructure. We will take care of Cache, Hyperspace, Clarity and everything in between. We can accommodate different work configurations like full outsourcing, focus-area specific outsourcing or backup type roles.

At Sapphire Health, we believe a team is stronger than the sum of its parts.

Our work backs up our philosophy.

**WE GUARANTEE IT.**

### Contact Us

(608) 422 4799

Most Epic consultants think technical services aren't sexy. They're right. Technical services aren't sexy...

**THEY'RE EVERYTHING.**

## AIX TO RED HAT LINUX PLATFORM MIGRATION

We provide planning, design and execution of AIX to Red Hat Linux migrations for Epic systems. We build modern and scalable Linux platforms according to best practices to ensure long term customer success.

This includes environment layout and strategy, license advisory, Linux Satellite server deployment and a transparent cutover that minimizes disruption to end users.

-  Systems update management
-  Epic Cache database support
-  Epic security support
-  Epic Clarity reporting support
-  Epic Hyperspace & presentation platform support
-  Certified partnerships with Citrix, Microsoft, Red Hat and Duo Security
